

## Connecting customers, automotive brands and retailers globally

### We deliver solutions that transform businesses

Modix has been on the market for over 20 years and is the Europe-wide leader in solutions for vehicle sales.

We are part of the US-based Cox Group, which is under owner management, offering both the benefits of being an international enterprise as well as being a flexible and supportive company.

Join our team as

## Senior Corporate Counsel (m/f/d)

### This is where you work

- You will be part of a team of three lawyers for the Retail Solutions Group, and part of a team of ten in the wider UK/EU Legal team.
- Our customers are spread out over 7 continents, 74 countries and speak over 25 different languages.
- Our daily routine is challenging and varied.
- We represent ourselves with a positive and appreciative attitude.

### This is what you do

- As legal advisor to various businesses across Europe, provide advice in respect of new technology products, customer agreements and supplier arrangements.
- Advise Cox subsidiaries in Germany on employment law matters and liaise with the Works Council.
- Work closely with other members of the Legal team based in the UK to provide pragmatic support to the business.
- Provide assistance to other members of Cox Legal on European IPT matters as required.
- Work closely with the Privacy Teams and Technology Security Teams in Europe and the US to mitigate risks associated with the processing of personal data.
- Monitor processes to ensure the Retail Solutions Group protect and exploit its intellectual property rights in line with business objectives.
- Support on strategic investments and integration of acquisitions in Germany.
- Oversee contentious matters with suppliers and customers, including the instruction of outside counsel where appropriate.
- As business partner to its senior management, provide strategic legal advice to forward the objectives of the Retail Solutions Group.
- The position requires frequent interactions with all levels of the organisation and externally.
